# Wide Range of Small Plastic Containers for the Industries You Serve

## OVERVIEW:

- ✓ Made from high-density polyethylene (HDPE), Greif's range of plastic containers are strong, durable & chemically resistant while being highly recyclable
- ✓ For more sustainable options, bottles and jerrycans can be produced using Post-Consumer Resin (PCR)
- ✓ Available using multi or mono-layer technologies
- ✓ Innovative barrier technology options available to protect product integrity & mitigate risks of permeation
- ✓ Our containers can be customized to fit your needs. Choose from a variety of height, weight, neck size, handle style and color options
- ✓ UN Approvals & Food Certifications available

## Standard Solutions

Choose from a wide range of high-performance HDPE containers - F-Style, Slant Handle, No-Glug & more.

## No-Glug, Stackables & more

Greif has the in-house expertise to meet your unique packaging needs - from updating an existing container to designing a completely new packaging solution.

## Specialized Services

### LIGHTWEIGHTING OPTIONS:

Innovative, lightweight designs, like the Jerrycan Reinforced (JCR), deliver enhanced performance using less raw material, ensuring cost-efficient transport and a reduced carbon footprint.

### VENTING SOLUTIONS:

Greif's containers ensure a safe, glug-free user experience with innovative neck and handle designs, along with various closure options, for smooth and controlled pouring.

### LABELING & SLEEVING:

Streamline your operations with Greif's labeling services and work with us to create custom sleeves that meet your branding goals.
