

FIBRE DRUMS

VERSATILITY

All-Fi® Standard and Transport Drums*

- Available in 1–55 gallon sizes
- All fibre drum with no metal components
- Standard drums have a telescoping cover and positive flush tape seal
- Transport drums have a telescoping and sturdy, offset cover
- Rugged, double-wall construction and low tare weight
- Economical option for dry or solid materials

Hot-Flo® and Cold-Flo® Drums

- Available in 55 gallon size
- Hot-Flo® drums:
 - The straight-walled 22.5" diameter does not require any modifications to dispensing plates or platens, while providing a tight seal to help prevent flow-by
 - Removable bottom allows for maximum use of contents and ease of disposal
 - High-release silicone lining and removable bottom cover
 - Designed for packing hot melts, compounds, printing inks and food products
- Cold-Flo® drums:
 - The straight 22.5" is ideal for packaging liquid or semi-liquid products using a platen unloader
 - Combination linear and low-density polyethylene lining and crimped bottom cover

Lok-Rim® Drums*

- Available in 6.5–70 gallon sizes with steel, plastic or fibre cover
- Full open top assures quick filling and dispensing
- Exceptionally low tare weight with smooth fibre interior for thermal insulation
- Ideal for dry, solid and semi-liquid products
- Exceptional strength against impact and provides tamper evident sealing
- Barriers and laminate options available to protect your product

Liquipak® Drums

- Designed specifically for liquid and semi-liquid applications
- Full laminated plastic interior surface, plastic lining system, caulked bottom juncture and plastic or steel cover
- Corrosion-resistant alternatives available for covers and top and bottom chimes

Payoffpak® Drums

- Center winding core allows continuous feed
- Available in all fibre construction
- Ideally suited for packing and dispensing wire or tubing products

Harvestpak® Drums

- Available in different sizes for a variety of applications
- Lightweight, lower-cost alternative which can be used outside
- Aseptic bag-in-fibre drum system, developed specifically for shipping tomato paste, purees and other food products

Weatherpak® Drums

- Weather and climate resistant with multi-trip and improved stacking capabilities
- Available in different sizes for a variety of applications
- Body has a multi-layer laminate
- Used for dry, semi-liquid, liquid and solid products

Economy® Drums

- Available in 3.5–35 gallon sizes
- Customizable interior bag
- Easy to open and re-secure using unique quick-clip closures
- Suited for shipping a multitude of loose or bagged contents

Ro-Con® Drums*

- Available in 3.5–75 gallon sizes with sturdy single-wall construction
- Rounded corners, convex sides, telescoping cover and offset tape closure
- Specifically designed for optimum space utilization and low-cost shipment
- Suitable for dry and solid materials

*UN/DOT available for these products
