

# VERSATILITY & CUSTOMIZATION

## VALVES

Our patented butterfly valve features a gasketless disc that is over-injected with HDPE. If the product is compatible with the bottle, it will be compatible with the valve. This technology greatly minimizes product compatibility questions and the potential for gasket leakages.

### Butterfly

- 2" and 3"
- Weldable or Screw-on
- Quick Disconnect or Threaded Connection

Over-Injected Gasketless Disc

### Ball

- 1.5" and 2"
- Screw-on Version
- Quick Disconnect or Threaded Connection
- Anti-Back Flow or Pressure Release Options

## CAPS

We offer a variety of caps to meet the diverse needs of your packaging requirements.

- 6" or 9" sizes with EPDM and FKM (Viton) gaskets
- 2" Plugs with various buttress and NPT threading

## PALLETS

Our workhorse steel hybrid pallet delivers unparalleled performance. It combines the strength of steel (pan, center bridge and tubing) with the ruggedness of HDPE (corner supports), that provide superior impact resistance.

- Heat Treated or Kiln Dried Wood Pallets
- Steel Hybrid Pallets

## BOTTLES

The GCUBE bottle protects your products and the environment. The high density polyethylene (HDPE) is extruded using a radial wall thickness control for exceptional product consistency.

### Available in:

- Natural, Grey or White
- 2" or 3" Discharge Opening
- 6" or 9" Fill Opening
- 275 or 330 gallons
- UN Approved
- Food Grade

## TECHNICAL SOLUTIONS

Our local and global teams will collaborate with you in order to help you to develop the best solution for the packaging, storage and transportation of your products.

- Ensure Product Security
- Optimize Processes throughout the Supply Chain
- Secure Handling and Transportation
- Complete Compliance with Applicable UN / DOT Regulations
- Sustainable Solutions which Protect People and the Environment

**NOTICE:** This information constitutes a general description of these products. Because the actual conditions of use of these packaging products may vary, it is the customer's sole responsibility to determine the suitability and compatibility of our packaging products. WE DISCLAIM AND EXCLUDE ANY IMPLIED WARRANTIES, INCLUDING WITHOUT LIMITATION THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

# SPECIALIZED SOLUTIONS FOR DIVERSE APPLICATIONS

The GCUBE® is a highly efficient and rugged container used for storing and transporting bulk quantities of hazardous and non-hazardous products, whether it is across town or around the world. The tubular, galvanized steel cage design utilizes square tubes that provide superior strength and durability compared to other tube profiles.

## REGULATIONS

- Applicable materials & components comply with FDA requirements for food packaging
- ISO 9001 Registered CAR Quality System
- SQF Code Edition 7.2, Level 2 - Lavonia, GA
- UN/DOT Performance Certification Available

# SUSTAINABILITY

EarthMinded® Life Cycle Services focuses on the collection, reconditioning and reuse of empty industrial packaging. The EarthMinded group of affiliates is the largest network strategically located throughout the continental U.S. and Canada committed to environmental stewardship. If the empty package cannot be reused in its original form, the raw materials are recycled for alternative purposes. Virtually nothing goes to waste.
