The Drum's Smooth Cylindrical Body with Flush Interior Surface is the Perfect Solution for Emptying with a Pressure Plate or Standard Platens

OVERVIEW

- ✓ The straight-walled 22-½" (571.5 mm) diameter does not require any modifications to dispensing plates or platens, while providing a tight seal and preventing flow-by.
- ✓ To assure maximum utilization of the Hot-Flo® or Cold-Flo®, Greif offers a selection of high-release liners as well as a choice of covers: metal, fibre or plastic.
- ✓ The Hot-Flo® drum offers a removable bottom cover that allows for extremely effective product recovery.

Hot-Flo®: steel cover, gasket, standard width top and bottom chimes, high-release silicone lining, bottom removable steel cover with polyester sealing sheet, bottom locking band.

Cold-Flo®: plastic cover without fittings, gasket, standard width top and wide bottom chimes, polyethylene lining, crimped on bottom, for liquids as well as semi-liquids.
