

PLASTIC DRUMS

VERSATILITY

TIGHT HEAD DRUMS

P Series Drums

- Available in 8–20 gallon sizes to fit customary filling requirements
- Swing handles make handling the drum easy
- Stackable and reusable

GP Series Drums

- Available in 30, 32, 35 and 55 gallon sizes with a drainable top
- Extra large compression molded ring for easy handling
- Molded hand holds

NexDrum®

- Available in 47–65 gallon sizes
- Parallel sides and 360° footing (stackable and stable)
- Strong, rigid and ISO dimensional
- Superior environmental stress crack resistance

ISO Containers

- Diameter is sized to fit 4 wide in an ISO container, lowering ocean freight cost
- Better stack performance due to the narrower footprint
- Will not rust when exposed to salt/moisture

OPEN HEAD DRUMS

O Series Drums

- Available in 10–77 gallon sizes (stackable)
- Extremely strong with molded hand holds
- Lever-lock style locking band
- Can be cleaned and reconditioned

O-MB Series Drums

- Available in 20–55 gallon sizes with tapered design
- Lever-lock, bolt-ring and poly locking bands
- Patented bumper feature prevents other drums from riding up and damaging the locking band

Tapered Drums

- Available in 12–15 gallon sizes
- Allows for nesting of empty drums for economical transport and storage
- Molded hand holds
- Lever-lock or bolt-ring style locking band

NexDrum®

- Available in 47–65 gallon sizes
- Parallel sides and 360° footring (stackable and stable)
- Ideal for applications requiring the use of platen pumps
- No inverted groove makes the drum easier to empty

SPECIALTY DRUMS

PC Series Drums

- Available in 15, 30 and 55 gallon sizes
- Used for transporting hazardous and non-hazardous liquids
- Robust square design for logistics optimization and excellent stacking
- Large molded-in hand holds can also be lifted by the forklift

PCL/PCH Series Drums

- Available 15 and 30 gallon sizes
- Specifically designed for the Agricultural Chemical industry
- Bottom slopes to a sump to get maximum product out using a dip tube
- Available with contrasting/custom color lifting rings

16 Gallon Grease Kegs

- Half the weight of other designs makes these less expensive to ship
- Straight sides are ideal for use with platen pumps
- Significant reduction in residual grease as compared to standard grease kegs
- Recyclable

Injection Molded Drums

- Available in 15–25 gallon sizes
- Extremely strong and easy to handle
- Can be produced to meet stringent cleanliness requirements

Open Top Liquid Rated Drums

- Meet needs of products that may change between liquid and solid states
- Liquid rated to handle Class 3 hazardous materials
- Lever-lock style locking band

High Performance Series Drums

- Several tight head options available rated for Class 1 hazardous materials
- Open top options available for heavy mass Class 2 hazardous materials – up to Y400

EcoBalance™ Series Drums

- Drums made with recycled HDPE
- Variety of drum styles available to meet various needs
- Available in black and blue

TECHNICAL SOLUTIONS

Our local and global teams want to collaborate with you to help you to develop the best solution for the packaging, storage and transportation of your products.

- Ensure product security
- Optimize processes throughout the supply chain
- Secure handling and transportation
- Compliance with applicable UN/DOT regulations
- Sustainable solutions which protect people and the environment

SUSTAINABILITY

EarthMinded® Life Cycle Services focuses on the collection, reconditioning and reuse of empty industrial packaging. The EarthMinded partners offer the largest network strategically located throughout the continental U.S. and Canada committed to environmental stewardship. If the empty package cannot be reused in its original form, the raw materials are recycled for alternative purposes. Virtually nothing goes to waste.
